**Subject:** Info for tomorrow's Data Call at 11am

Here's two documents that we will be using tomorrow to brief you both on the status of data analysis on Dimock. Kelley has additional details to add, but its what she will be talking from. The Word document is a general status of the six homes of the eight considered for water. Remember that two of those homes were just sampled last week (3 & 7). The other document lists the analytical methods that we have requested. It shows where they were analyzed, etc. Generally we have only EPA Region 2, 3, & 9 data loaded into Scribe and have done some of the Project Level QA review. But we will have more to say tomorrow about that.

Talk to you tomorrow.

Did you get 5996 for this call?

Rich
